

JMax

JMAX gives correctional teams full control over daily jail operations—from intake to release. Whether managing a few holding cells or a full detention center, our JMS simplifies intake, tracks inmate activity, and keeps your facility running smoothly.

Complete Jail Operations in One System

Pre-Booking & Intake

Start intake before arrival. RMS-linked pre-booking reduces time at intake and eliminates duplicate data entry.

Booking Wizard

Step-by-step workflows guide staff through classification, fingerprints, property intake, photos, and medical screening—ensuring every intake step is complete.

Records & Classification

Track housing, movement, behavior, medical needs, and classification. Built-in flags manage separations, gang affiliations, and facility-specific holds.

Property & Banking

Manage deposits, commissary, personal property, and release payouts with full tracking and audit trails.

Visitation & Communication

Track in-person visits, and integrate with phone, video, and kiosk vendors for full communication management.

Programs, Incidents & Grievances

Track education, work release, trustee assignments, rule violations, grievances, and incident reports in one system.

Key Integrations

- Fingerprint scanning (AFIS live scan)
- Victim notification (VINE and SAVIN)
- Court scheduling and transportation
- Inmate phone and video systems
- EMR connections for medical coordination
- Commissary, kiosk, and tablet vendors
- Public inmate lookup portals

Core Features

- RMS-linked pre-booking
- Guided booking wizard
- Built-in classification logic
- Inmate banking and property management
- Medical, commissary, and court interfaces
- Work release, weekenders, and trustees support
- Incident and grievance tracking
- Cell checks, transfers, and shift logs
- Full audit trails across all activity
- Easy release processing with record retention
- PREA tracking

Facility	Building	Floor	Floor Section	Cell	Statistics
----------	----------	-------	---------------	------	------------

Building	Beds Available	Beds Out of Service	Beds In Use	Total Beds
